

MODERN BISTRO

Rich materials, parquetry flooring and an elegant pendant lamp evoke true Parisian style.

INTERIOR DESIGNER TONKA ANDJELKOVIC
“I wanted to create a contemporary, elegant space with clean lines but also to evoke the spirit of a classic Parisian apartment, so I added ornate cornices, architraves around the windows, and plaster details to the walls. The island benchtop is in one piece of marble that had to be brought in from the street by crane.”
